

Organisational success log for recording achievements over the last 12 months or during the pandemic in 2020

Whilst leadership starts with you it does involve your team and your organisation. This is why this one starts with the successes of your organisation and tracks these into the team and your contributions. Then everyone can see how they have contributed to this success as success breeds success.

Other relevant support I can provide for you

- If you want to know how other legal business owners (including Jodie) address their leadership challenges then my third book: **Business Skills? Don't be daft I am lawyer!** [link] provides you with their stories. Additionally, in **Section 5 Chapter 5.3** there are more in-depth exercises for you to hone yours and best practices in leading change.
- If you have not completed the 'Why' exercise [link] in Section 1 Mindset for success now would be a good time to do this.
- The power of insight for a **leader** is extremely valuable. Have you tried a psychometric assessment or does it sound like too scary a step? There are many different types of psychometric tests and all provide you with information that you can use to understand and strengthen your leadership skills. I recommend the MiRo Assessment Psychometric System as it has a specific leadership report which shows which one of 16 leadership styles is your preferred one. This really allows greater customisation of the leadership training and coaching. This in turn speeds up the personal effectiveness of my clients as it allows them to focus on performing better using their strengths.

Here are examples of leaders who have taken the MiRo test:

Jodie Hill Founder and Managing Partner Thrive Law *'my leadership approach is **Animator** style. So, my natural style, amongst other things, is that I am always in motion and passionate about my mission.'*

Noreen Khan Founder and Managing Partner Kaiser Solicitors *'my leadership approach is **Sage** style. This means my leadership is rational and determined with a clear vision of the future.'*
